

DIVISION WASTE WATER TREATMENT				
Country	Customer	Scope of work	Type of water	Details
Austria	AWV Faakerseegebiet	Process controll / SCADA	Municipal waste water	
Austria	WVB Ossiacher See	Process controll / SCADA	Municipal waste water	
Austria	Community of Mödling	Process controll / SCADA	Municipal waste water	
Austria	Community of Waidhofen / Ybbs	Process controll / SCADA	Municipal waste water	
Austria	Community of Unteres Rodltal	Process controll / SCADA	Municipal waste water	
Austria	Community of Mühlthal	Process controll / SCADA	Municipal waste water	
Austria	Community of St. Nikola a.d. Donau	Process controll / SCADA	Municipal waste water	
Austria	Community of Imst	Process controll / SCADA	Municipal waste water	
Austria	Community of Arzl i. Pitztal	Process controll / SCADA	Municipal waste water	
Austria	Langbauer company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Ada company	Ultrafiltration / General constructor	Water based paint	
Austria	Kaeser company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Imac company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	IFA company	Ultrafiltration / General constructor	Pilot plant for research	
Austria	Fresenius company	Ultrafiltration / General constructor	Aliphatic wash water	
Austria	Rexam Beverage company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Bachleitner company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Höllner company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Vorwagner company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	Schütte company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Austria	AACON company	Reverse Osmosis / General Constructor	Degreasing	
Austria	Greiner company	Reverse Osmosis / General Constructor	Clean water processing for Extrusion technology	
Austria	Imac company	Reverse Osmosis / General Constructor	Oil / Water-Emulsion	
Austria	Ada company	Reverse Osmosis / General Constructor	Process water for water based paint recycling	
Austria	Renner company	Splitting Plants / General Constructor	Washing water treatment / emulsion paint	
Austria	Birngruber company	Splitting Plants / General Constructor	Washing water treatment / emulsion paint	
Austria	Community of Frankenfels	Biofiltration / General Constructor	Municipal waste water	2500 population equivalent
Austria	Community of Stubaital	Biofiltration / General Constructor	Municipal waste water	40'000 population equivalent / <b>Biggest municipal plant in Austria</b>
Austria	Community of Arbesbach	Biofiltration / General Constructor	Municipal waste water	360 population equivalent
Austria	Community of Grossraming	Biofiltration / General Constructor	Municipal waste water	4'500 population equivalent
Austria	Community of Obersiebenbrunn	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'500 population equivalent
Austria	Community of Gastern	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'000 population equivalent
Austria	Community of Grossgöttfritz	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	1'300 population equivalent
Austria	Community of Haidershofen III	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	4'500 population equivalent
Austria	Community of Sollenau	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	60'000 population equivalent / <b>Biggest municipal plant in Central Europe</b>
Austria	Community of Pöggstall	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	5'000 population equivalent
Austria	Community of Untersiebenbrunn	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'000 population equivalent
Austria	Community of Hardegg	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	540 population equivalent
Austria	Community of Hofkirchen	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	5'000 population equivalent

DIVISION WASTE WATER TREATMENT				
Country	Customer	Scope of work	Type of water	Details
Austria	Community of Mining	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'500 population equivalent
Austria	Community of Jois	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	3'000 population equivalent
Austria	Community of Poggersdorf	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'500 population equivalent
Austria	Community of Grafenstein	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	2'000 population equivalent
Austria	Silhouette Schmied AG company	Splitting Plants / General Constructor	Waste water from spray booth	
Austria	Terranova Weber company	Splitting Plants / General Constructor	Washing water from plaster production	
China	Community of Huludao	Sequencing batch reactor Plant (SBR) / General Constructor	Municipal waste water	200'000 population equivalent
Finnland	Pakenso company	Ultrafiltration / General constructor	Flexoprintcolours	
Germany	Bodycote-Mahler company	Ultrafiltration / General constructor	Oil / Water-Emulsion	
Germany	Bayrische Wellpappen company	Ultrafiltration / General constructor	Flexoprintcolours	
Germany	Community of Fernwald	Process control / SCADA	Municipal waste water	10'000 population equivalent
Germany	Community of Biedenkopf	Process control / SCADA	Municipal waste water	50'000 population equivalent
Germany	Community of Weilerbach	Process control / SCADA	Municipal waste water	15'000 population equivalent
Germany	Community of Langenlonsheim	Process control / SCADA	Municipal waste water	10'000 population equivalent
Germany	Community of Köln	Process control / SCADA	Municipal waste water	200'000 population equivalent
Germany	Community of Winnenden	Process control / SCADA	Municipal waste water	50'000 population equivalent
Germany	Community of Buchenbachtal	Process control / SCADA	Municipal waste water	10'000 population equivalent
Germany	Community of Zwiefalten	Process control / SCADA	Municipal waste water	20'000 population equivalent
Germany	Community of Donaulauchert	Process control / SCADA	Municipal waste water	20'000 population equivalent
Germany	Community of Grenzach-Whylen	Process control / SCADA	Municipal waste water	20'000 population equivalent
Germany	Community of Waiblingen	Process control / SCADA Low voltage installation	Municipal waste water	60'000 population equivalent
Germany	Community of Hegnach	Process control / SCADA	Municipal waste water	25'000 population equivalent
Germany	Community of Gera	Process control / SCADA for 40 pump stations	Municipal waste water	
Germany	Community of Gebesee	Process control for biological purification plant	Municipal waste water	3'000 population equivalent
Germany	Community of Walschleben	Process control for biological purification plant	Municipal waste water	3'000 population equivalent
Germany	Community of Dessau	Process control / SCADA for 40 pump stations	Municipal waste water	
Germany	Community of Werdau	Process control for biological purification plant	Municipal waste water	8'000 population equivalent
Germany	Community of Schmöln	Process control for biological purification plant	Municipal waste water	20'000 population equivalent
Germany	Community of Gössnitz	Process control for biological purification plant	Municipal waste water	3'000 population equivalent
Germany	Community of Triebes	Process control for biological purification plant	Municipal waste water	5'000 population equivalent
Germany	Community of Auma	Process control for biological purification plant	Municipal waste water	3'000 population equivalent
Germany	Community of Langenwetzendorf	Process control for sequential batch reactor	Municipal waste water	3'000 population equivalent
Germany	Community of Lübtheen	Process control / SCADA Low voltage installation	Municipal waste water	12'000 population equivalent
Germany	Community of Einbeck	Process control / SCADA Low voltage installation	Municipal waste water	80'000 population equivalent
Germany	Community of Buxtehude	Process control / SCADA Low voltage installation	Municipal waste water	16'000 population equivalent
Germany	Community of Reppenstedt	Process control / SCADA Low voltage installation	Municipal waste water	12'000 population equivalent
Germany	Community of Diesdorf	Process control / SCADA Low voltage installation	Municipal waste water	12'000 population equivalent
Germany	Community of Auetal	Process control / SCADA Low voltage installation	Municipal waste water	80'000 population equivalent
Germany	Community of Schwedt	Process control / SCADA Low voltage installation	Municipal waste water	80'000 population equivalent
Germany	Community of Polßen	SBR Plant / Process control / SCADA Low voltage installation	Municipal waste water	4'000 population equivalent
Germany	Community of Passow	SBR Plant / Process control / SCADA Low voltage installation	Municipal waste water	4'000 population equivalent

DIVISION WASTE WATER TREATMENT				
Country	Customer	Scope of work	Type of water	Details
Germany	Community of Hille	Process control / SCADA Low voltage installation	Municipal waste water	24'000 population equivalent
Germany	Community of Dollern	Process control / SCADA Low voltage installation	Municipal waste water	2 x 10'000 population equivalent
Germany	Community of Dannenberg	Process control / SCADA Low voltage installation	Municipal waste water	25'000 population equivalent
Germany	Community of Hess. Oldendorf	Process control / SCADA Low voltage installation	Municipal waste water	18'000 population equivalent
Germany	Community of Amelinghausen	Low voltage installation	Municipal waste water	12'000 population equivalent
Germany	Community of Stolpe	Process control / SCADA Low voltage installation	Municipal waste water	4'000 population equivalent
Germany	Community of Gartow	Process control / SCADA Low voltage installation	Municipal waste water	12'000 population equivalent
Germany	Community of Gaarz	Process control / SCADA Low voltage installation	Municipal waste water	18'000 population equivalent
Germany	Community of Falkensee	Low voltage installation	Municipal waste water	6'000 population equivalent
Germany	Community of Angermünde	Process control / SCADA Low voltage installation	Municipal waste water	16'000 population equivalent
Germany	Community of Casekow	Process control / SCADA Low voltage installation	Municipal waste water	3'000 population equivalent
Germany	Community of Gorleben	Process control / SCADA Low voltage installation	Municipal waste water	8'000 population equivalent
Germany	Community of Crussow	Process control / SCADA Low voltage installation	Municipal waste water	3'000 population equivalent
Germany	Community of Emmerthal	Process control / SCADA Low voltage installation	Municipal waste water	24'000 population equivalent
Netherland	BOL company	Ultrafiltration / General constructor	Flexoprintcolours	
Poland	Gold Drop company	Nanofiltration / General constructor	Tenside treatment	
Spain	Rayter company	Ultrafiltration / General constructor	Cooling Lubricant	
Switzerland	Community of Altenrhein	Energy management	Municipal waste water	230'000 population equivalent
Switzerland	Community of Amriswil	Process control / SCADA	Municipal waste water Sewage network	43'000 population equivalent
Switzerland	Community of Appenzell	Mean voltage Process control / SCADA General contractor Low voltage installation	Municipal waste water Sewage network	16'500 population equivalent
Switzerland	Community of Balzers	Process control / SCADA	Municipal waste water Sewage network	
Switzerland	Community of Benken	Process control / SCADA	Municipal waste water Sewage network	5'000 population equivalent
Switzerland	Community of Buchs	Process control / SCADA Low voltage installation General constructor	Municipal waste water Sewage network	48'000 population equivalent
Switzerland	Community of Ebnat-Kappel	Process control / SCADA	Municipal waste water	14'300 population equivalent
Switzerland	Community of Ellikon	Process control / SCADA	Municipal waste water	10'000 population equivalent
Switzerland	Community of Feldbach	Process control / SCADA	Municipal waste water Sewage network	16'800 population equivalent
Switzerland	Community of Flaachtal	Process control / SCADA	Municipal waste water	5'300 population equivalent
Switzerland	Community of Kloten-Opfikon	Process control / SCADA	Municipal waste water	52'500 population equivalent
Switzerland	Community of Mönchaltorf	Process control / SCADA Mean voltage Low voltage installation	Municipal waste water Sewage network Water supply	6'200 population equivalent
Switzerland	Community of Obermarch	Process control / SCADA	Municipal waste water Sewage network	10'000 population equivalent
Switzerland	Community of Ossingen	Process control / SCADA	Municipal waste water Sewage network	3'867 population equivalent
Switzerland	Community of Pfäffikon	Process control / SCADA	Municipal waste water	17'400 population equivalent
Switzerland	Community of Ramsen	Process control / SCADA	Municipal waste water	263'250 population equivalent
Switzerland	Community of Stäfa/Uerikon	Process control / SCADA Low voltage installation	Municipal waste water	6'250 population equivalent
Switzerland	Community of Wädenswil	Process control / SCADA	Sewage network	90'000 population equivalent
Switzerland	Community of Winterthur	Process control / SCADA	Sewage network	150'000 population equivalent
Switzerland	Community of Wolhusen, Werthenstein, Blindei	Process control / SCADA	Municipal waste water	11'500 population equivalent
Switzerland	Community of Zurich	Process control / SCADA	Municipal waste water	800'000 population equivalent
Switzerland	Seewasserwerk Männedorf	UF-Membran filters / Process control / SCADA	Lake water to drinking water	1000 m <sup>3</sup> /h
